### Challenges faced:

Rural girls education is a real challenge as the women are not encouraged much for education and employment both from family and society due to existing beliefs.

Selection of the students for project is always difficult as there are many but we would avail the help for only few.

The students come from different socio economic background hence initially it is tough time to bring them to the standards, change their look out towards things, make them aware of their .

### 3. New Project – Context ( Briefly describe about the Institution and the services rendered)

St. Ann's College for Women is a christain minority institution which works with vision of empowering socio economically poor girls through value based holistic education to campion the cause of justice and love. This institute is serving the students for past 45 years selflessly and empowering the girls with dignity and pride. It facilitates all round development of young girls to face the future with hope. The college has got its great history and reputation for its services in and around. The student's receive academic assistance from best lecturer. To make the children aware of their talents competitions are held on physical and educational spheres and their capabilities are marketed well so that they are an asset to the society the walk in. We also provide vocational training which helps the children to get an employment in a recognised institution.

### 5. Need of the present assistance - Problem and consequences

"Education of women is equal to educating a nation, essential to save the environment and a smart way to bring changes to the world" India is known as one of the rapidly developing country, however large amount (70%)of population still comes under rural regions with minimum facilities required for a daily healthy living and education. We have most of our students coming from the rural areas of Bihar, Jharkand, Orissa, East & West Godavari, Srikakulam, Visakhapatnam and Vizianagaram. The societies in these regions are economically, socially and culturally backward. The main reason behind this is low education of women and children. restricted access to quality health care, Cultural or social differences, stigma, and norms.

### Problem and Consequences:

Women are often believed to be of a lower value in society due to their non-breadwinner status. Financial support, old age security, property inheritance, dowry and beliefs surrounding religious duties all contribute to the preference of sons over daughters.

Below are few of the hurdles faced by rural children and women:

No access to education: According to ASER report 2014, only 1 out of 100 girls from Rural India makes it to colleges. This number is both shocking and depressing considering the fact that women form almost half of our population. Whereas 60%-70% men in rural areas are educated.

Due to lack of education women are unable to participate and apply for better jobs or status in the society. This makes them economically weak and they have to depend on the male heads for their basic requirements.

Patriarchal society of these regions gives a superior position to men. Women are kept confined to their households and not allowed to participate in any activities like elections, discussions, participating in major festivals. They are unable to fight against such evils due to the lack of knowledge about the redressal forum for their well-being and economic deficiency.

Inadequate education leads to increase in poverty for the families which have girl children as they are not qualified enough to support their family. It causes Lack of proper sanitation and health care due to which women become victims of open defecation and also the diseases which are caused by it. It gives air to social evils like killing of girl child, caste system, class discrimination, child marriage, dowry system, domestic violence.

The illiteracy of women is the downfall for the society she lives in. Families with uneducated women face issues with family values and health. Due to lack of knowledge women are infected by Malnutrition and morbidity, Breast cancer, maternal issues, HIV/AIDS, Cardiovascular disease and many more.

Unable to find a resolution towards hindrance most of the women end up by committing suicide or working at inappropriate places.

Education will not only raise the women to economical sufficiency but also help them to fight against all the hurdles in life which comes in form of society backwardness, illness or violence. They will be a boon to their locality which will help their fellow mates to improve their standard of living and have a quality life

6. Beneficiaries - Name of the students – their family background, the present education and the need of the support

Our institute aims to support and develop majority of the girls who are discouraged to study further due to the economic conditions prevailing at home. So far we are progressing due to the support you have rendered us. The main issue is to improve the present situation the family members of these girls are ask them to either get married or start working at an early age without even a thought that a better education will help them to pursue a better career and they will be able to manage the economy of their families in a better way.

Below we state a list of few girls with an adverse condition and immediate need for help.

1. **Nandini** of 1<sup>st</sup> Bi.P.C lost her mother in her early childhood and is raised by her father. Her father is a farmer and finds it very difficult to meet the basic and educational ends. The income is not certain as the outcome of the crops are depended on climate which is unpredictable and other marketing factors.
2. **V. Aruna** is a student of 1<sup>st</sup> Bi.P.C , her parents work as daily labourers and are paid on the basis of everyday work. There are days when the parents do not find work which makes their lives difficult and they have to stay without food. Such circumstance makes it very difficult for them to continue the education of their children.
3. **B. Varshini** is a student of 2<sup>nd</sup> year M.P.C , she has a family of 4 members including her father , mother, sister and herself. Her father is a daily labourer and mother is a housewife. Due to unavailability of work on a regular basis there is no fixed income for the family, they cannot access to basic needs or even have a proper meal a day.
4. **Tejasri** is a student of 2<sup>nd</sup> year M.P.C, she has lost her father recently which has devastated the family. Her grandparents had taken care of her and fulfilled everything possible from their end. As they are aging they are unable to continue working to support her education or their own needs for living.
7. **S.Anusha** is a student of 1<sup>st</sup> BSC (MSCS), her father had abandoned the family in her childhood so the mother had to take the job of a maid to support the family. The elder brother had to drop his studies and start working in the canteen to help his mother. However their combined salary is so less that it is insufficient even for paying rent of the house and getting essentials for daily living
8. **R.Dhanalakshmi** is a student of 1<sup>st</sup> B.A who lost her father in an accident, to provide the family need the mother took up a job of a daily labourer. 11. **S. Shravanti** is a student of 1<sup>st</sup> B.SC (MSCS) lost her father at a small age due to which her mother started to work as a tailor at a small shop. The money earned was only sufficient to buy them everyday food. Her grandparents used to support her education but due to the racing age they are unable to continue working so they wouldn't be able to contribute any further towards the education.
12. **K. Tulasi** of 2<sup>nd</sup> B.A lost her father at a small age, now she lives with her mother who is a housewife and an elder brother who dropped out from school to help the family financially.
