Bachelor in Science (BSc Chemistry, Botany, Zoology)

Program Outcome:

The B. Sc. programme enabled the student to enhance their critical thinking during their three year period of study and the curriculum stimulates the mental thoughts and assumptions of the students.

This helps the students to take up practical work and compare the results with their assumptions, there by leading to accuracy and validity of the practical knowledge.

This analysis leads to take decisions at intellectual, organization and personal from different perspectives of life. Students of the programmable to learn all basic concepts in biological and chemical sciences which are very much the need of the hour as there is a dearth of good students in the area of basic sciences in the country.

The students would be equipped to continue higher studies in any of the branches of Life Sciences and Chemical Sciences.

The modules on tissue culture, molecular biology and genetics, taxonomy, economic botany, ethno pharmacology, analytical chemistry etc., make them fit to be employable in respected fields.

This course encourages the student to take up advanced studies and research in Botany, Zoology and Chemistry and pursue their goals.
