The conference successfully created awareness about green technology, sustainable practices, and collaborative efforts needed to address global environmental challenges. It served as a meaningful initiative in promoting scientific discussion and sustainable thinking among participants.

About the Conference

As part of the Golden Jubilee celebrations of St. Ann's college for Women, an International Conference on Environmental Protection is being organized to address one of the most pressing global concerns of our time. With the world facing serious environmental challenges as climate change, pollution, biodiversity loss, and resource depletion, this Conference aims to create awareness and inspire collective action for a sustainable future.

The Conference will bring together eminent scholars, environmentalists, researchers, Scientists and policymakers across the globe to share their knowledge, experiences, and innovative solutions. It will provide a platform for meaningful dialogue on protecting natural resources, promoting sustainable practices, and encouraging responsible lifestyles.

Special focus will be given to the role of youth, educational institutions, and communities in safeguarding the environment. Participants will gain valuable insights into current environmental issues and practical strategies to address them at local, national, and global levels.

This initiative reflects our institution's commitment to social responsibility and environmental stewardship. By organizing this Conference, we aim to contribute to global efforts in protecting our planet and ensuring a healthier, greener future for generations to come.
